

Air 1 has been a positive beacon of light when I lived in Las Vegas for the past 8 years and still now that I live in Bluffton, SC. Air 1 broadcasts positive songs with lyrics that are encouraging and lift me up throughout the day. In a society with SO MANY STATIONS PLAYING LYRICS WITH AMORAL VALUES, Air 1 reaches out to the lost and is always there for me if I need prayer. We need Air 1 because of its positive influence on society. It promotes love, marriage, families working and staying together. I've heard many times callers who tell their stories how Air 1 was on and they heard the message of Jesus and called the station for help and because Air 1 was there people who use to be addicted to drugs, alcohol, sex, etc. are now free of them. Isn't America about the betterment of our society? Yet we see it decaying in every way. The majority of people believe in God or at least what He says is right and wrong. The minority shouldn't be allowed to control what happens anymore. Thank you.
